## Introduction

The St Martin's School Retention Schedule attempts to identify processes which our records support, rather than identifying individual types of records. This is for two reasons:

- To make the retention period apply to all records independent of any format, i.e. the same rules apply to a paper file, an e-mail or another electronic document
- To allow flexibility in developing the schedule to cover new processes and amend existing ones over time.

The Schedule is intended to cover the lifecycle of records and information from creation through to destruction or permanent preservation.

Records intended for destruction under the Schedule may be destroyed in accordance with the provisions of the Schedule. Backup copies stored on alternative media (server/microfilm/paper) should also be destroyed. This is vital to ensure compliance with the requirements of Data Protection law and Freedom of Information legislation.

Records for permanent preservation should be passed to the County's Record Office or other approved place of deposit

## Limitation of Scope

Very few types of records have specified time periods for retention in law or in official government guidance. Where such advice exists it is included in this Schedule. Where advice does not exist, it is up to us to decide how long we wish to retain records. This Schedule gathers together retention criteria from a comprehensive best practice review of a wide range of organisations across the country.

## Objectives of the Retention Guidelines

The aims of the Guideline are to:

- Prevent the premature destruction of records that need to be retained for a specified period to satisfy legal, financial and other requirements of public administration
- Provide consistency for the destruction of those records not required permanently after specified periods in order to reduce the costs of unnecessary storage
- Promote improved Records Management practices within ECC which gives the public confidence that when information is destroyed it is done so according to well-considered rules.
- Assist in identifying records that may be worth preserving permanently as part of the authority's archives

## Transfer of Records to a Record Office

Records identified in this schedule as 'permanent' are marked 'Offer to Archivist'. The Archivist may choose to select a sample of the records for permanent preservation in the County Archives; the remainder should be destroyed as specified in the Schedule. The sample may be random, selective or purposeful.

'Offer to Archivist for review' is used to indicate record classes where the Archivist will not usually be interested in retaining the class of records, but may wish to retain where there is a public interest in doing so.

Records no longer required for administrative use may still retain sensitive information. The Archivist should be informed of sensitivity at the time of transfer of the material to the archives, and an appropriate closure period agreed. The closure period should comply with Freedom of Information and Data Protection legislation and any internal policy.

Data Protection law provides an exemption for information about identifiable living individuals that is held for research, statistical or historical purposes to be held indefinitely; provided specific requirements are met. It is the responsibility of the Archivist to ensure that further processing of personal data is lawful.

## Destruction of Records

Whenever there is the possibility of litigation, the records and information that are likely to be affected should not be amended or disposed of until the threat of litigation has been removed.

Records that are currently (or known to be in the future) the subject of a Freedom of Information, Data Protection, Environmental Information Regulations etc official request or appeal, must not be destroyed until that request or appeal has been completed. To knowingly destroy a record when it is subject to a request/ complaint is an offence.

## General and Miscellaneous records

There are some records that do not need to be kept at all that staff may routinely destroy in the normal course of business. However, the retention schedule must still contain reference and instructions referring to them.

This usually applies to information that is duplicated, unimportant or only of short-term value. Unimportant records or information include:

- 'With compliments' slips
- Catalogues and trade journals
- Telephone message slips
- Non-acceptance of invitations
- Trivial email messages or notes that are not related to our business
- Requests for stock information such as maps, plans or advertising material
- Out-of-date distribution lists
- Working papers which lead to a final report

Duplicated and superseded material such as manuals, drafts, forms, address books and reference copies of annual reports may be destroyed under this rule. Electronic copies of documents where a hard copy has been printed and filed, and paper faxes after making and filing a photocopy, are also covered.

## Reviewing the Schedule

The schedule will be regularly reviewed and updated to ensure that we are complying with the latest legal advice. These changes will be reflected as soon as possible. Changes will be highlighted so that employees can keep track and modify their practices accordingly. The Schedule will be subject to the timetable for general review of all Information Governance policies.

## Explanation of Retention Guideline Headings

### **REF (Reference Number)**

Each identified function or entry has a unique reference number. This number can be applied to records when archiving to ensure that the correct retention period is applied.

### **Title**

The Schedule provides a description of a process or an activity that the records support.

### **Data Protection Issues**

Explains whether the records are likely to contain personal data.

### **Statutory Provisions**

Details of any legislation, statutory instrument (SI) or other regulatory guidance which provide direction in how long a record should be retained

### **Retention Period**

This field shows the length of time for which a record should be kept. This period (usually in years) can be applied from the date a record is created, when a record is closed or tied in to another specified activity such as a date of birth.

**Action to be taken**

This field details any action that should be taken once a retention period has expired, the level of secure destruction and will also specify whether a type of record should be transferred to the County Record Office for permanent preservation
